

ALLELOPATHY JOURNAL

CALL FOR PAPERS

Clarivate Analytics Impact Factor of Allelopathy Journal for 2020 is 0.962.

For Faster Publication of Mss. within 60-90 days after submission from 2016, Journal published Bi-monthly (January, March, May, July, September, November). It aims to provide common platform for scientists interest in publishing and reading research articles in the field of Allelopathy and will cover most plant interactions with the surrounding environment. The Journal covers the subject areas :

- Plant-Plant Interactions
- Plant-Microorganisms Interactions
- Plant-Plant Pathogens Interactions
- Plant-Insect Interactions
- Plant-Environment Interactions
- Plant-Soil Interactions

The Journal is important for Plant Biologists, Plant Physiologists, Ecologists, Mycologists, Microbiologists, Agronomists, Landscape Architects, Environmental Engineers, Entomologists, Students and all Researchers interested in sustainable use of natural resources.

CALL FOR PAPERS

Allelopathy Journal prefers to publish only those Manuscripts containing the original research and reviews in the fields of interactions between the plants and their surrounding environment that present fundamental advances of wide interest to the plant-interaction biology community. Preference will be given to manuscripts presenting evidence that answers important questions with a high degree of certainty and clarity. Manuscripts that only describe the effects of plant interactions - although important and do not meet the standards insisted on by the reviewers without providing a biological meaning and interpretation are not suitable. Similarly quality manuscripts that describe a new methodology, but do not also provide substantial new insight into the biology of plant interactions may not meet reviewer's expectations or the Journal's scope. Furthermore, manuscripts that are not accompanied by a sound statistical analysis of data to support results will not be considered.

All submissions will be independently referred by Editorial Board Members and by two External Reviewers. All published research articles in this Journal undergo rigorous peer review, based on initial Chief Editor screening and anonymous refereeing by two expert referees.

Submissions

All Manuscripts should be submitted at chiefeditor@allelopathyjournal.com, allelopathy2021@gmail.com or at narwals2021@gmail.com.

For further information on preparing Research paper for Allelopathy Journal, please visit www.allelopathyjournal.com and click on 'Instructions for Authors'.

EDITORS

EDITORS-IN-CHIEF

Prof. M.J. Reigosa, Facultad Ciencias, Universidade de Vigo, Ap 874, 36200, Vigo, SPAIN
pachi.baloncesto@gmail.com

CHIEF EDITOR

Prof. S.S. Narwal, 101, Sector-14, Rohtak-124 001, Haryana, India.
E. Mail: allelopathy2021@gmail.com, narwals2021@gmail.com

EDITOR

Prof. D.A. Sampietro, Instituto de Estudios Vegetales, UNT, Espana 2903, Tucuman, Argentina.

ASSOCIATE EDITORS

Prof. S.O. Duke, USDA-ARS, NPURU, University of Mississippi, School of Pharmacy, Oxford, MS-38766-8048, USA.

Prof. S.R. Baerson, Natural Products Utilization Research, Molecular Biologist, P O BOX 1157, Oxford, MS, 38655-0000, USA.

Prof. V.V. Roshchina, Russian Academy of Sciences, Institute of Cell Biophysics, Pushchino, Moscow Region, SU-142 292, Russia.

Prof. S.L. Peng, State Key Laboratory of Bio-control, Sun Yat Sen University, Guangzhou 510275, China.

Prof. Hanwen Wu, NSW Dept of Primary Industries, Agricultural Research Institute, Wagga Wagga, NSW 2650, Australia.

Prof. Margot Schulz, MBIO Institute, University of Bonn, 53115 Bonn, Germany.

Prof. Pavle Pavlovic, Department of Ecology, Institute for Biological Research, University of Belgrade, 11060 Belgrade, Serbia, Serbia.

Prof. Luis Rodrigues, Universidade De Vigo, Facultade de Biologia, 36210-Vigo, Spain.

Prof. Monica Scognamiglio, Max Planck Institute for Chemical Ecology, Hans Knoell Strasse 8, 07745 Jena (DE) Germany.

Prof. R.S. Kahlon, Division of Microbiology, Punjab Agricultural University, Ludhiana-161 004, India.

Prof. S. Valencia-Diaz, Centro de Investigación en Biotecnología (CEIB), Universidad Autónoma del Estado de Morelos, Cuernavaca, Morelos, México

Prof. K.M. Zhang, College of Biology and Environment, Nanjing Forestry University, Nanjing 210037, China.

Prof. Daizy Batfish, Department of Botany, Punjab University, Chandigarh-160014, India.

Prof. B.M. Chen, State Key Laboratory of Bio-control, Sun Yat-Sen University, Guangzhou 510275, China.

Prof. X.G. Zhou, Department of Horticulture, Northeast Agricultural University, Harbin 150030, China.

Prof. Sylwia S. Wilezewska, University of Gdansk, Institute of Oceanography, Gdansk, Poland.

Prof. S. Subramanian, Division of Entomology, I.A.R.I., New Delhi-110 012, India.

Prof. Jiao Li, College of Life Science, Sichuan Normal University, Chengdu 610101, China

Dr. A. Javid, Department of Plant Pathology, Faculty of Agricultural Sciences, University of the Punjab, Lahore 54590, Pakistan.

Prof. M.R. Khan, Division of Nematology, I.A.R.I., New Delhi-110 012, India.

ASSISTANT EDITORS

Dr. Nimisha Amist, Department of Botany, Allahabad University, Allahabad, India.

Dr. Tauseef Anwar, Department of Botany, Islamia University, Bahawalpur-63100, Pakistan.
